Palm Tree Trimming

Last week you received notice regarding the trimming of Palm Trees on the golf course. If you live along the golf course and want trees trimmed, you must contact the golf course by June 20th.

We also want to advise you that our landscape contractor – Conserve – will be trimming trees owned by the Community Association beginning July 1st.

Conserve is also offering to trim your palm trees on your private property while they are on site. The cost to trim fan palms will be \$52 per tree. The cost for date palms will be \$75 per tree.

If you are interested in this offer, you should contact Cheri Mayer at Conserve. Cheri can be reached at cmayer@conserveandcare.com or (760) 250-1192.
